AI Strategy & Policy Consulting

CAPABILITY STATEMENT

Policy precision for health tech and AI governance

Legal Name:	The Amavasya Foundation (d/b/a Themis Digital Health)	UEI:	SAM.gov registration in progress
Entity Type:	Wyoming C-Corp Small Business	CAGE Code:	Issued with SAM.gov registration
Location:	Sheridan, WY 82801	Primary NAICS:	541611 (Mgmt Consulting)
Primary Contact:	Natalia Vargas, MPH, Founder & Principal	Other NAICS:	541618, 541690, 611430

CORE COMPETENCIES & ON-DEMAND SERVICES

- **AI Strategy, Governance & Roadmaps:** Designing 3-year AI roadmaps and supporting AI governance charter development, including technical governance processes, model lifecycle management and responsible AI standards. Assessing AI capability gaps and structuring use cases aligned with CHAI, Joint Commission themes and the NIST AI RMF. Recommending strategic investments that support responsible AI adoption and evaluating use cases for mission alignment.
- **AI Implementation Playbooks & Toolkits:** Developing standardized AI Implementation guides, evaluation frameworks, templates for documenting best practices and lessons learned, responsible AI guidance and risk mitigation workflows for small healthcare facilities and state programs. Providing end-to-end AI expertise to accelerate solution development.
- **CMS Rural Health Transformation (RHTP) Support:** Technical assistance, readiness assessments, and ambient AI scribe governance toolkits specifically tailored for Critical Access Hospitals (CAHs) and Rural Health Clinics (RHCs).
- **Health IT & Federal Regulatory Strategy:** Translating complex ASTP/ONC (HTI-1/HTI-2), CMS, and HHS rules and policies into executive briefs, decision frameworks, and operational compliance strategies. Monitoring AI landscape and providing thought leadership on industry trends and federal AI policy developments.
- **Cross-Sector Coalition Building & Training:** Capability building for clinical staff on AI technologies and implementation approaches via training guides and presentations, facilitating stakeholder alignment, and executive policy briefings.

THE THEMIS DIFFERENTIATORS

- **Ex-HHS Federal Policy Leadership:** Founded by a former HHS AI Taskforce Member, SME on AI and technology policy with 13 years in the federal government directing national hospital quality improvement programs and data modernization portfolios.
- **Productized, Low-Burden Toolkits:** We bridge high-level federal policy and frontline clinical reality, delivering ready-to-execute toolkits and policies that scale compliance without overwhelming small clinical teams.
- **Extensive National Network in America's Safety-Net:** Deep-rooted relationships across a national partner network in medically underserved and rural areas, state government offices, hospital associations, and national professional organizations.
- **Rigorous Public Health Science Grounding:** Backed by an MPH and Graduate Certificate in Hospital Infection Control from the University of South Florida, combined with 11 peer-reviewed publications (including Health Affairs).

TARGET CUSTOMERS & CONTRACTING VEHICLES

Target Customers: State Health Departments, Tribal Governments & Medicaid Agencies · State Hospital Associations, National Trade Organizations & Offices of Rural Health · Federally Qualified Health Centers, Critical Access Hospitals, Tribal Clinics & Rural Health Clinics · Solo Clinical Providers & Behavioral Health Facilities · RHTP Prime Contractors & Grantees (as specialized subcontractor).

How to Buy / Contracting: Available for direct commercial contracting, fixed-price productized deliverables, time-and-materials advisory, and subcontracts under federal/state prime awards.
